

Ministries of WOMEN OF GRACE USA

- **Women's Summits**, for leadership and for spiritual transformation and growth, give women a chance to meet other women and process in a safe setting the challenges of leadership and/or life.
- **Women's Leadership Studies** help women learn how to lead biblically, and how to appropriately deal with issues of being a woman in leadership.
- **Missions trips** help women see how they can use their giftings in cross cultural settings, and they offer a unique opportunity to be an encouragement to women missionaries.
- **Discipling girls through SMM** gives young girls a good biblical foundation on which to stand, preparing them for the challenges the culture will throw at them.
- **Mentoring** offers women opportunities to learn how to minister to other women and girls through a discipleship/mentoring environment.
- **Prayer focus** is recruiting and inspiring women to be committed prayer warriors, praying faithfully for missionaries and other needs that are presented to them.
- **The GraceTouch e-newsletter** is bringing FGBC women together, connecting them with what other women are doing, and touching areas of their lives where they have needs.
- **The Women's Spectrum annual magazine** gives women a look into the lives of other women to see how they handled difficult circumstances, provides scriptural teaching on a specific topic, and gives women who desire to write a chance to be mentored in their writing skills.
- **Honor Her Scholarship** is awarded annually to a Grace College woman toward her expenses to go on a mission trip sponsored by an FGBC ministry. Through these scholarships, young women are able to explore ministry opportunities through short term mission trips.
- **Leadership development opportunities** happen as women are given a chance to discover their gifting through experiences such as writing for the magazine or newsletter, developing curriculum for the girls' ministry, planning events, or learning how to write Bible studies.
- Women of Grace USA is contributing to the **unity and strength** of the Fellowship of Grace Brethren Churches by teaching women how to: develop godly relationships, to resolve conflict in a gracious and biblical way, develop a deep walk with Christ that transforms attitudes and lives, recognize and combat the lies of the world, and come alongside and support their husbands, pastors and other male leaders in their lives.
